Hello Jordan,

Thank you for contacting the DAHP about this project. This predetermination report and archaeological isolate form have been received by the DAHP. The isolate has been determined NOT eligible by definition, as it does not meet archaeological site criteria, and therefore NO DAHP permit will be required for the isolate to be impacted. The formal review of the remainder of this project will be undertaken during the SEPA review period.

Feel free to contact me if you have questions about these comments.

Best,
Stephanie

Please review the resource’s eligibility, enter your DOE concurrence/non-concurrence into the Administration tab, upload your letter to the Documents and Images tab of the online form, and then move the Activity to Review Complete. Please let me know if you need any assistance with this.
