Ms. Faust,

The City received updated information in response to the City's incompleteness letter dated September 19, 2019. We have reviewed the additional information that was submitted and have determined that the application is **technically complete** and ready for Type II critical areas permit review. As per La Center Municipal Code section 18.30.090, the City issues a decision on Type II permits within 56 days after completeness. This timeline does not include any time need for the applicant to supplement their application with additional information, if requested by the City.

Please contact me should you have any questions about the information in this letter, the critical areas review process, or any other issue. I can be reached at [ethan.spoo@wsp.com](mailto:ethan.spoo@wsp.com) or by phone at (360) 823-6138.

Sincerely,

Signed:  Date: 17 October, 2019
