A boundary Line adjustment (BLA) is a division made for the purpose of adjusting boundary lines which does not create any additional lot, tract, parcel, site or division which contains insufficient area and dimension to meet minimum requirements for width and area for a building a building site. Boundary line adjustments may not be concurrently reviewed with another land division if the proposed adjustment might affect the perimeter of the other land division.

Boundary line adjustments recorded through the county assessor's office do not ensure such adjustments meet current zoning requirements. BLA applications approved through the La Center Planning Department ensure compliance with current zoning requirements, and are reviewed and approved through the TYPE 1 process, pursuant to LCMC 18.30.080. The planning director shall review the boundary line adjustments through a TYPE 1 procedure. Prior to approval, the city engineer shall find whether the adjustment will interfere with the extension of any planned right-of-way, public utility easement or capital facility identified by the CFP
