In regards to the exterior appearance of the ADU, we are doing the following to match the existing house.

1. Body color will be white to match the existing house
2. Windows will be white to match the existing house
3. Trim around the windows will be black to match the existing house
4. Roof will be composition to match the existing house
5. Gable over the front door will have the same natural wood accent to match the existing house
6. Posts around the house will be natural wood to match the existing house
7. Roof pitch, siding and garage door will all be similar to that of the existing house
