The Basics

Nearly every home in La Center is required to be “setback” from property lines a certain distance. These setback requirements are shown below:

Fences & Hedges

Between the front facade of your home and the street, fences and hedges must be limited to four feet. They may be up to six feet tall along the front facade or behind it. Note that there is a small sliver of public right-of-way on your side of the sidewalk.

Building Permits

Building permits are required for all accessory structures over 120 square feet. Permits can be obtained from the Public Works Office.

But I still have questions!
